From physical plant to matched evaluation

1 MODEL
the machine

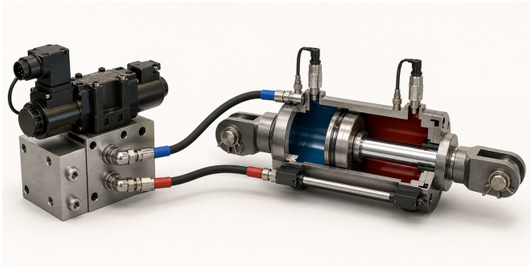

Chapter 3

CAD + hydraulic contract

physics prior

2 LEARN
the actuator

Chapters 4–5

ID–FD + grey-box ROM

identified dynamics

3 TRAIN
the policy

Chapter 6

randomized plant family

anchored policy

4 EVALUATE
matched stacks

Chapter 7

same task · seeds · budget

matched evidence

one shared contract: desired cylinder motion ↔ measured response
